RARE VINTAGE BOOKS

Tamara Artis

Bookstore Project Phase1

Stage One: Empathise

- **Activity**
- ○ Gather into groups to interview instructor and TAs who will act as the clients.

Deliverable

- **What task do they currently perform?**
- Add, Delete and Update books on one main office computer via excel.

Bookstore Project Phase1

Stage One: Empathise

- **What are the hardest / most frustrating aspects of their current system?**
- No company wide system. Can only access store spread sheet one person at a time on only one computer
- **When do they typically perform there task?**
- Daily; whenever new books arrive or one is sold the excel sheet will need to be updated
- **What are the set of skills that they currently possess?**
- Familiar with Excel Spreadsheets

Deliverable

- **How would this change improve their feelings about completing**
- **their tasks?**
- Convivence and efficiency
- **■ How do their tasks, responsibilities differ from the other profiles?**
- Employees: can login, add/update inventory only from diff. computers or laptops through the office
- Managers: Same but also will have deleting privileges.

Bookstore Project Phase1

Stage Two: Define Problem

Problems

- **Problem1: There is no company wide system?**
  - Create a company wide system that can be accessed via new updated company website.

  - This will allow employees and Management access anywhere in the office and not just at one main computer.

- **Prpblem2: One can only access store spread sheet one person at a time on only one computer.**
  - Each person will have a login personalized with certain capabilities based on there company position/duties.
  - All employees will be able to add/ update inventory and log sales. Only management will be able to delete inventory via the use of there login.

Bookstore Project Phase1

Stage Three: Ideate

Activity

Brainstorm

Any/All ideas welcomed

How Might We Improve…

Problem1:

There is no company wide system?
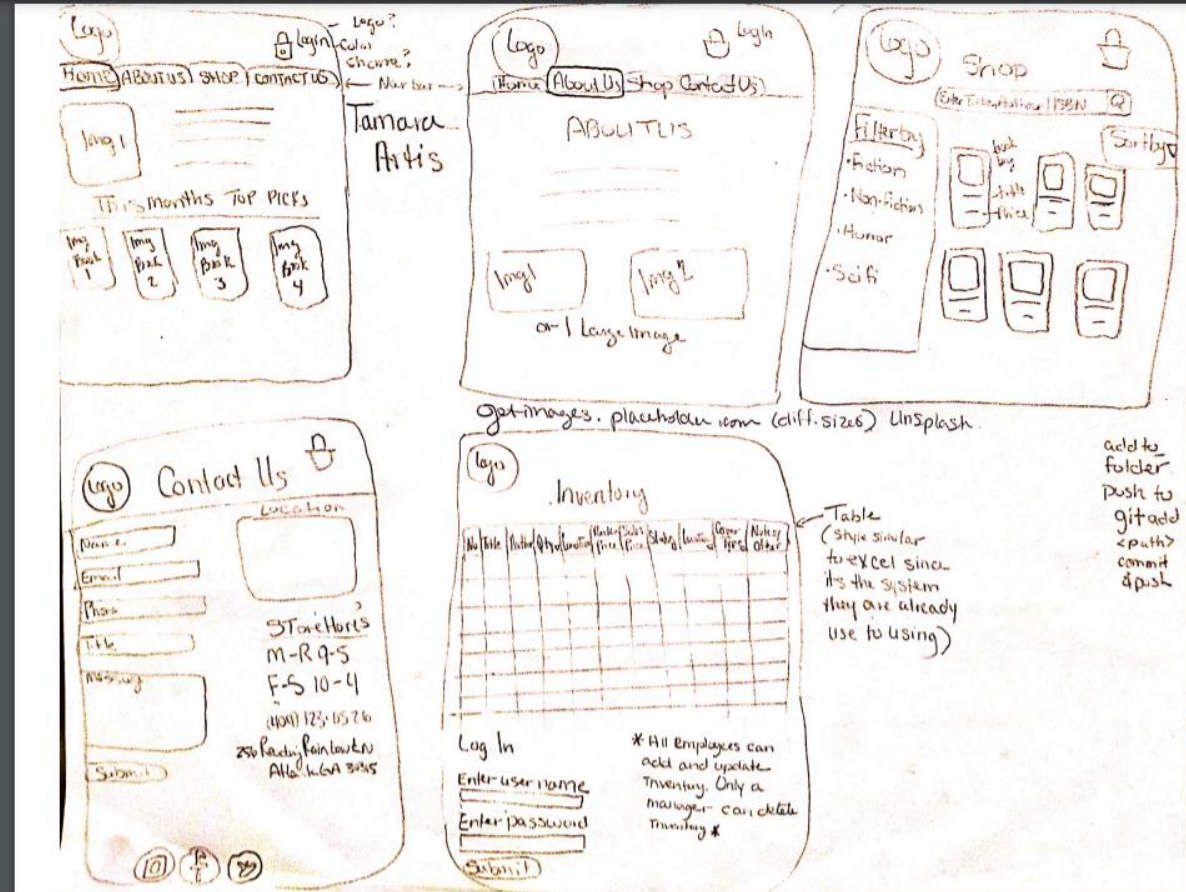

-can access from any where

Problem2:

. -One can only access store spread sheet one person at a time on only one computer.

-access from laptop/phone

Please Note: This is our new Inventory Logging System. All employees will be able to access from any laptop or tablet in the store. All employees will be able to add and update new book shipments and log daily sales. Only Managment will have the ability to delete books with their login. Sales associates can reachout to a manager to assist them with an override if this function is deemended needed by managment.

Bookstore Project Phase1

Stage Five: Test

- **Activity:**
- Testing phase will occur many times:
- -Need to have multiple classmates to test my prototype

Deliverable

- **Testing Results/Feedback:**.
- --Write out the code in Html/CSS to solve problems
- --all features on my site are not working such as no selections in the dropdown menu
- Must set up other 4 navigation pages
